IMPORTANT NOTICE

Informational purpose and individual responsibility

This presentation is for **informational and educational purposes only**.

It **does not constitute** financial, legal, or tax advice, nor a personalized investment recommendation.

I am not a financial advisor or wealth manager.

Each person should analyze the information for themselves and, if deemed necessary, **consult authorized professionals** before making any decision.

Any investment, trading activity, or participation in markets, digital assets, or related software **involves risks**, including the possible partial or total loss of capital.

Past results, examples, simulations, or projections **do not guarantee future results**.

The decision to participate or not is solely up to each individual, **under their own responsibility**.

Invest only what you are willing to risk. Understand first. Decide later.

THE STORY OF HAI

AUTOMATION
DECENTRALIZATION
FINANCIAL FREEDOM

It was not born around a person. It was born around **a need.**

1

1. THE PROBLEM

For years, many digital solutions required giving up control of assets or relying on third parties.

2

2. THE QUESTION

What if technology could automate processes and execute actions without the user losing control of their wallet?

3

3. THE BIRTH OF THE AGENT

From that idea, HAI was born: an artificial intelligence agent designed to combine automation, speed, and user control.

4

4. THE VISION

A non-custodial ecosystem focused on decentralization, where intelligence works 24/7 and the user decides.

The intelligence works. You remain in control.

Self-Custody

Automation

Web3

Total Control

01 • ECOSYSTEM VISION

A 100% decentralized ecosystem

HAI is designed as a decentralized ecosystem where the user operates from a self-custody wallet, maintains full control of their assets and combines Web3, automation and artificial intelligence in a single experience.

Self-custody
wallet

Swap and
gasless technology

Decentralized
card

HAI
and subwallet

No intermediaries • More control • More freedom

Self-custody, secure and without limits

Total control
of your funds

Swap between multiple
cryptocurrencies

Gasless technology
to get gas from
different assets

Your own card to
move funds between
wallet and Visa

Everything in one single experience, from your own wallet.

DECENTRALIZED ECOSYSTEM • AI • WEB3

03 • HAI AND THE SUBWALLET

The ecosystem's **operational engine**

1 • Entry from your wallet

Connect your wallet and authorize securely.

2 • Send **USDC** on the **ARBITRUM** network

USDC

ARBITRUM

To move crypto to your subwallet, it must be **USDC** on the **ARBITRUM** network.

3 • Your HAI subwallet is created

Your HAI subwallet is created.

4 • Connection to Hyperliquid

Your subwallet connects to Hyperliquid to operate with AI automatically.

5 • Control and withdrawal

You can withdraw your funds and profits whenever you want.

No need to create a separate account

The user maintains control of their funds

No capital lock-up

You can withdraw funds and profits whenever you want.

Automated distribution via Web3 infrastructure

Connect • Build • Grow without limits

How capital works in the subwallet

Operational transparency · Visible control · Automatic distribution

1 · Capital in the subwallet

Capital is deposited into the **subwallet** connected to **Hyperliquid**.

The client can view **open positions** at all times.

They can also review **history** and **commission distributions**.

2 · Visible operations

Hyperliquid

Spot

Perps

Portfolio

History

3 · Automatic distribution

Generated result
(net profit)

50%

Client wallet

Automatic and
immediate transfer

50%

**Distribution in the
Hyperliquid app**

Transparent and verifiable

**50% of generated profits go
automatically to the client's wallet**

Only cost: \$1 per withdrawal, Hyperliquid fixed fee.

The other 50% is **distributed transparently**
in the Hyperliquid app.

Full visibility of operations

Manual withdrawals available

Automatic and transparent distribution

How **distribution** works

Only with profits • Minimum threshold • Automated process

1 • Main rule

The compensation plan distribution is only paid out **if there are profits**.

It is **not made from losses** nor does it cause a collapse of the operating capital.

Daily distribution is not guaranteed.

Profitability may vary depending on operating results.

2 • When is it activated?

- 1 Whenever the accumulated profit in the account **exceeds \$10**,
- 2 during the **early hours in Europe**
- 3 the distribution is executed **automatically**.

Profit is accumulated until the minimum threshold is reached.

3 • If it does not reach \$10

If a client does not reach \$10 in profit, there will be **no distribution yet**.

The distribution will be made when the **required minimum is accumulated**.

This **avoids inefficient withdrawals** with amounts below \$10.

Reason: Hyperliquid charges a fixed \$1 for each withdrawal.

Example:

\$6.40 accumulated → **no distribution yet**
\$10.20 accumulated → **distribution occurs**

Only with profits

Minimum threshold of \$10

Automated during Europe's early hours

08

· DISTRIBUTION OF THE DIFFERENTIAL BONUS

Differential bonus distribution

HOW IT WORKS WHEN A CLIENT MATCHES YOUR RANK

1 MATCHES YOUR RANK

When a client reaches your same status or rank, it stops generating structure earnings for you on that line.

2 YOU DO NOT EARN FROM THEIR STRUCTURE

From that moment on, you do not earn from the structure or internal network that they develop below on that branch.

3 YOU DO RECEIVE THE DIFFERENTIAL BONUS

Even so, you receive **50%** of what that client earns each day as a differential bonus.

Example: If your client earns **\$100** in one day, you receive **\$50** as a differential bonus.

DIFFERENTIAL BONUS

YOUR GROWTH CONTINUES WITH THE PRODUCTION OF YOUR NETWORK

BUILD · SCALE · EARN WITHOUT LIMITS

Unilevel levels **unlock**

IMPORTANT: When unlocking the first rank, all unilevel levels that the user has open are automatically released, **with no depth limit.**

This benefit applies from the first rank unlocked and expands the reach of the compensation plan.

Greater reach • More potential • More growth

Accuracy and responsibility notes

Transparency today. A stronger tomorrow.

Verify all **legal, technical and contractual details** before publication or distribution.

Features such as gasless, third-party integrations, connection to Hyperliquid, card operation, self-custody, automation and any distribution mechanism **must correspond to the product actually deployed.**

The compensation plan **cannot be changed** to protect client security.
The only thing that may vary is the annual service rental cost, according to current promotions.

Network earnings **are not guaranteed** and will depend on individual effort, adoption and market conditions.

Cryptoassets and decentralized finance (DeFi) may involve **partial or total capital losses.**

Users must **understand the associated risks** before participating.

SOFTWARE ACCESS

Annual **ecosystem** activation

One single license. Full potential.

Reference price

399,90 \$

Launch offer

99,90 \$

75%
discount

Annual software license / rental

Includes WayCard gift card

LIMITED INITIAL CAPACITY

If you already know you want to join, **this is the best time to secure your access.**

As the ecosystem grows, there will be a **maximum number of new entries** and access may be temporarily closed to preserve the best balance of volume and operations in the market.

HAI

HYPER AUTOMATIC INTELLIGENCE

13

• GIFT CARD • INCOME BY LEVELS • GLOBAL POOL

Monetize your card

When you rent the license, you receive a **gift card**. Each top-up or movement linked to the card can generate income across **4 levels** and additional access to the **Global Pool** under certain requirements.

Income across 4 levels

TOTAL: 0,8%

Level 1
+0,2%

Your direct referrals.
You earn from the activity linked to your first level.

Level 2
+0,3%

The second generation of your network. It is the level with the highest percentage.

Level 3
+0,1%

The third generation. More depth, more additional income.

Level 4
+0,2%

The fourth generation. You complete the cycle of 4 levels.

Every time there is eligible activity in the structure, income by levels is activated.

Global Pool

5%
weekly

5% of global billing is distributed among those who meet the growth requirements.

REQUIREMENTS FOR THE GLOBAL POOL

W1 • 1%	500 CLIENTS	20 DIRECTS
W2 • 1%	1,000 CLIENTS	30 DIRECTS
W3 • 1%	5,000 CLIENTS	50 DIRECTS
W4 • 1%	10,000 CLIENTS	100 DIRECTS
W5 • 1%	25,000 CLIENTS	200 DIRECTS

The more growth you generate, the greater participation you can achieve in the Global Pool.

MORE TOP-UPS = MORE MOVEMENT

• MORE LEVELS = MORE INCOME

• MORE GROWTH = MORE POOL
